

# Ansys Mechanical Beyond the Basics

## **Module 03 Student Reference Guide: More Realistic Connections**

Release 2021 R2

# Module 03: Learning Objectives

Upon successful completion of this module, the student should be able to:

- Identify the nonlinear contact types and describe their basic behavior
- Define a line body beam and describe its basic behavior
- Define a Beam Connection and define its basic behavior
- Use the Object Generator to automatically replicate a Beam Connection

 **Ansys**
